

# Free training in Domestic Retrofit

***This fully funded two day course will develop your knowledge around Retrofit. From creating a warmer, healthier household, to saving money and tackling the climate emergency, there are plenty of benefits to retrofit.***

NOCN Level 2 in Understanding Domestic Retrofit is the ideal place to start your retrofit journey. It gives you a well grounded understanding of what's actually involved in domestic retrofit.

It's relevant to a wide range of individuals and organisations, as well as those already working in Retrofit Construction or UK housing more generally.

Once complete, you will have an excellent foundation on which to develop a specialism in the sector, or simply understand the role of whole-house retrofit and its benefits.

Full funding available for businesses or residents based in the Winchester District through the UKSPF. To enrol for this fantastic opportunity, please scan the QR code here →

or email: [skills@hants.gov.uk](mailto:skills@hants.gov.uk)

This project is funded by the UK government through the UK Shared Prosperity Fund.
