Proposal: A large Liriodendron Tree growing on the South side of the Bishops Waltham Library car park is overhanging our property by a number of metres and the roots are causing damage to our flint wall and our back garden. In addition the roots are causing damage to both the Disabled parking space and the flint wall in the Library car park. Looking to trim the branches overhanging our property back to the main trunk by 2-3m. While this is a beautiful tree it was planted in the wrong place and sadly will need some major work doing.

Proposal: T1 is a Beech tree (Fagus sylvatica). The tree is on the boundary of 3 sleepers hill

close, within 1 meter of the fence line. I propose the tree to be dismantled to ground level due to having a number of Ganoderma brackets in a wound in the base of the tree. The tree is in striking distance of the neighbouring property (Lamorok House). A tree survey was also completed and the evidence of the survey supports the reasoning behind removing the tree. It does also state in the report alternative work if necessary.
