## Request

I am writing to you under the Freedom of Information Act 2000 to request the following information.

I am after information relating to the number of on street charge points installed within your jurisdiction.

In particular, are you able to provide me with:

Q1. How many electric vehicle public charging outlets or charge points have you installed in your local authority to date that are classed as on-street residential charge points, located in residential streets or areas? Please provide figures to the nearest possible date.

Q2. For Question 1, how many on-street residential charging outlets or charge points have you installed to date in your local authority that have been adapted specifically for disabled users? Please provide figures to the nearest possible date.

Q3. For Question 1, how many on-street public charging outlets or charge points are positioned in disabled parking bays?

Q4. For Question 1, how many of the on-street residential charge points in your area conform to the BSI's latest accessible charging specification (PAS 1899:2022)? Please provide figures to the nearest possible date.

Q5. Does your electric vehicle charging infrastructure strategy include specific considerations for elderly and / or disabled users?

Q6. Do you provide any additional support for disabled or elderly users wanting to access public charge points for electric or plug-in hybrid vehicles, such as charge-point assistants or roaming charging services?

Q7. Do you support or provide marketing tools to residents to make finding charge point services easier, such as charge point booking or journey planning technologies?

Q8. How many on-street residential charge points in your area have been installed or adapted to conform to BSI's latest accessible charging specification (PAS 1899:2022) since June 2024?

If unable to provide data since June 2024, please provide data for the past 12 months, since March 2024

## Response

Winchester City Council installs Electric Vehicle (EV) charging points in public car parks but does not install on-street charging points. This responsibility lies with Hampshire County Council. They can be contacted at:

<https://www.hants.gov.uk/aboutthecouncil/informationandstats/freedomofinformation>

Please be advised that two EV chargers have been installed at our completed housing schemes at the Valley (Belvoir House and Kingsdale House). . However, both chargers are accessible to the general public, not exclusively to residents.
